Avoid costly privacy law infringements

Did you know infringing privacy laws like GDPR could result in a fine of up to €20 million, or 4% of the firm's worldwide annual revenue from the preceding financial year, whichever amount is higher?*

Privacy Laws aren't just a concern in Europe. If you have candidates in your database from California, Canada, or the EU, your firm could be at risk. **Clockwork's Candidate Portal** helps prevent infringements by enabling candidates to manage their data and provide necessary permissions, while providing the necessary tools to manage candidate data effectively and securely.

Candidate Portal is an add-on feature. Additional subscription fees apply.
